

# Bob Fripp

## Full Stack Developer

I am a passionate web developer specializing in creating dynamic and responsive web applications using Ruby on Rails and JavaScript. With a solid foundation in Ruby and Rails, I excel in building scalable back-end systems, while my JavaScript skills enable me to craft interactive and engaging front-end experiences. My approach focuses on delivering clean, efficient code and innovative solutions to meet diverse client needs.

## PORTFOLIO ↗

## EDUCATION

Computer Science  
National Odin University  
October 2022 ~ December 2022

## SKILLS

Ruby  
Ruby on Rails  
HTML/CSS/SASS  
Javascript  
React  
PostgreSQL/MySQL

## CAREER OBJECTIVE

Determined individual seeking to launch a new career as a Web Developer. Committed to embracing new technologies and methodologies while contributing enthusiastically to projects that enhance user experiences and drive business growth. Excited to join a supportive team where I could continue to learning and growing as a professional in the dynamic field of web development.

## FULL STACK DEVELOPER

Skilled in full-stack web development, with a primary focus on backend technologies, particularly the Ruby on Rails framework. Proficient in frontend technologies including HTML5, CSS3, and JavaScript, along with frameworks like React.js for dynamic user interfaces.

Experienced in leveraging Ruby on Rails to build robust server-side functionality and efficient data management, with a strong emphasis on Test-Driven Development (TDD) principles. Proficient in utilizing PostgreSQL for database management, ensuring data integrity and scalability.

Demonstrated problem-solving skills in tackling complex challenges and employing object-oriented programming principles for scalable and maintainable code. Experienced in RESTful API development for seamless communication between frontend and backend systems.

Proficient in version control using Git, collaborating effectively within development teams to manage codebases efficiently and ensure project integrity. Committed to staying updated with emerging web technologies and best practices to deliver cutting-edge solutions.

## EXPERIENCE

The Odin Crew  
Backend Developer  
October 2022 ~ December 2022
